Praise for "Facilitator's Guide to Participatory Decision-Making," Second Edition
"In cross-functional environments, where diverse perspectives are intentionally brought together to produce high-quality thinking, a highly skilled facilitator can add great value--and Sam Kaner is one of the best. The Facilitator's Guide provides a full set of models and tools to enable an organization to reap the benefits of a well facilitated, participatory decision-making process. Having seen Sam's methods in action, I can attest to their power and effectiveness."

--Pierre Omidyar, founder and chairman, eBay and Omidyar Network
"Hooray for the Facilitator's Guide. It explains principles, practices, and processes with cogent clarity, and each diagram conveys a complex idea almost instantly."

"Our organization's core purpose is to dissolve boundaries across sectors in order to find innovative solutions to difficult social problems. We know how immensely challenging it is to facilitate dialogue among multiple stakeholders. This amazing book is a comprehensive guide for meeting that challenge. I've worked with a myriad of consultants during the past 16 years, and Sam Kaner's approach is vastly superior for bringing about lasting system change."
